

Re: Posting Yard/Garage Sale Signs

In 2010 students constructed a community announcement board, located at Main & Grant.

The Community Announcement Board is provided to create a central location where citizens may advertise or promote their yard/garage sales, or other information they would like the community to know about. Its purpose is to reduce littering on public and personal property by eliminating the use of boxes on street corners and signs posted on trash containers and utility poles.

The City of Ulysses is asking that citizens use this Community Announcement Board for their personal advertising.

Thank you for helping keep your community litter free.
